

Everything for inhalation

Hovione offers customized high-performance APIs, particle engineering and formulation along with a full range of highly specialized, innovative devices.

From feasibility to commercial

Fully integrated Solutions for Inhalation

Hovione can provide you with knowledge and experience in selection of technology and solutions to maximize probability of success and meet the needs of the disease, the patient, and time and cost of the development program.

Unparalleled security of supply

Reliable and innovative quality and cGMP compliance

- Fluticasone Furoate
- Fluticasone Propionate
- Mometasone Furoate Anhydrous
- Mometasone Furoate Monohydrate
- Glycopyrronium Bromide
- Salmeterol Xinafoate
- Umeclidinium Bromide
- Vilanterol Trifenatate

Dry Powder Formulation Services

- Generic API with bespoke powder properties
- Advanced particles, low to high dosage
- Unprecedented particle size control
- Spray drying; Wet polishing; Jet milling
- Formulation development services
- Full range of Devices
- Precision capsule filling
- Small-scale to commercial manufacturing

Device technology innovators

Hovione offers simple, patented and globally competitive dry powder inhalers – Disposable, Capsule, Blister and Large Dose DPIs – which are available for fully integrated turn-key development with formulation and for licensing.
