

Navigate challenges before you face them

5th APAC Pharma Symposium
Day 2, Classical application day

On Day 2, Classical application day (Solid), of our 3-day 5th APAC Pharma Symposium, we're talking about tackling **formulation & continuous manufacturing challenges** before you even face them.

[Sign me up for the event now](#)

Here's how the schedule for Day 2 looks like:

session 1: Functional excipients and application service

Dr. Finn Bauer
*Head of Excipients
 Solid Application*

Jankin Lu
*Head of A&F Solid
 Application Services
 Lab, Shanghai*

session 2: continuous Manufacturing: Merck answer to challenges

Dr. Hans-Leonhard Ohrem
*Strategic Marketing
 Manager - Solid*

While continuous manufacturing comes with benefits like reduced batch-to-batch inconsistency, elevated quality, and shortened production time, there are challenges too.

Learn how pharmacists from across the globe are elevating their practices and navigating challenges with these sessions. And that's not all! You'll also learn about Merck's dedicated products and new formulation application services.

Circle the date on your calendar

28th September

IST: 1130 - 1330 hrs
SGT: 1400 - 1600 hrs
