

AsiaTIDES – Bachem Presentation and Speaker

Title: Solubility-directed Development of an LPPS Manufacturing Process for Trileucine

Speaker Biography:

Wolfgang Seufert studied chemistry at the universities of Giessen and Leipzig. He has a PhD from the University of Basel for studying cyclization reactions of modified amino acids and peptides. Having joined Bachem more than twelve years ago and working in several positions at the Bubendorf and Torrance sites, he has gained broad experience in development, scale up, and manufacturing of peptides, both LPPS and SPPS. Wolfgang is currently leading a process development team within the Production department at Bachem AG.
